

About

The Sustainable Futures Project, which is targeted at primary school pupils, profiles our community service initiative aimed at raising an environmentally responsible generation through training sessions and student-led mini-projects. Learn more at www.elfghana.org/sfp

Why Volunteer?

- **Take climate action**
Participating in the SFP is a meaningful way to contribute to global climate action endeavors.
- **Access to professional training sessions**
Attend specialized training sessions to improve your knowledge of climate change and sustainability.
- **Improve your pedagogical skills**
Pass on your knowledge of environmental management to primary school pupils in a classroom/field setting.
- **Join a growing community of passionate Environmentalists**
Advance your career by connecting with leaders and influencers across different fields.
- **Access organizational support from ELF and partner organizations**

Eligibility Criteria

- Open to all KNUST Students
- Must have demonstrated passion for the environment and sustainability
- Must be available up to 8 hours per week

FAQs
